BALCOM'S SEEDS

THAT GROW IN NORTHERN COLORADO

Balcom Seed Co.

910 EIGHTH AVENUE

GREELEY, COLORADO

UNITED STATES FOOD ADMINISTRATION
LICLNSE NO. 05729

Colorado Seeds for Everwhere

The past season has seen substantial gain made in the seed-growing industry in our state. The results obtained from our fine high altitude grown seeds have been much superior to the seed grown in lower and more humid regions. This year we have a finer assortment than ever of all kind of seed and feel justified in claiming that in both QUALITY and PRICE we have outdistanced all competitors.

Our seed is shipped all over the United States and we ask only a trial to convince you that the seed grown in your own country is BEST FOR THE WEST.

Yours sincerely,

W. D. BALCOM.

Red Kidney Beans. This is a very desirable bean and one that does well in Colorado. Price per 100 pounds, $12.50; per pound, 15c.

Tepary Beans. Price now per 100 pounds, $7.00; per pound, 10c.

IF YOU HAVE BEANS YOU WISH TO HAVE HANDPICKED, SEE US. WE OPERATE FIFTY PICKING TABLES DURING THE WINTER SEASON

BEETS

Culture: You should plant beets in succession from early in April until August. The winter crop should be planted in late June or July. Use one ounce of seed to 50 feet of drill or 8 pounds to the acre. Put the seed one inch deep and in rows 18 inches apart.

NOTHING IS FINER THAN YOUNG BEET TOPS. PLANT THEM THICK AND THIN THEM OUT FOR "GREENS".

Price—Per Pkg., 5c; 4 ounces, 30c; pound, $1.00.

Detroit Dark Red. The most desirable for market gardeners.

Early Egyptian. Very early round flat type.
Early Eclipse. An old favorite.
Blood Turnip. The oldest standard variety.

SWISS CHARD

A type of beets that produces heavy tops and no bottoms. Will grow more greens than any other plant. After breaking off the leaves they grow on again and again until frost. Fine green stuff for your chickens.

Per Pkg., 5c. Pound, $1.25.

STOCK BEETS

We have in stock the following: Golden Tankard, Mammoth Long Red, Giant Half White Sugar, Lane's Imperial, Klein Wanzleben, Giant Sludstinp. Prices now 60c per pound.

BORECALE OR KALE

Used for greens. Plant in shallow drills early in the spring.

Pkg., 5c. Pound, 60c.

BRUSSELS SPROUTS

Pkg., 5c. Pound, $1.75.

A form of small cabbage that is used very extensively in the old country. Plant in shallow rows in the spring.

CABBAGE

Culture: Early cabbage must be planted in hot bed or green house during February. Second early and Late Holland cabbage must be planted in cold frames or open ground during April and May. To plant a pound of cabbage seed to grow plants requires a hot bed 16 by 32 feet. One-third of a pound of seed is sufficient for an acre. An acre will produce from 14,000 to 16,000 heads of cabbage. Crops of thirty tons are not uncommon.

EXTRA EARLY VARIETIES

Prices—Pkg., 10c; ounce, 30c; pound, $2.50.

Early Etampes.
Early Express.
Munsterland.

EARLY VARIETIES

Prices—Pkg., 10c; ounce, 30c; pound, $2.50.

Jersey Wakefield.
Winningstadt.

COPENHAGEN MARKET

Prices Pkg., 10c; ounce, $1.00; pound, $10.00.

This variety is planted almost exclusively in this district for early market. It produces a large round head, ranging in weight from 5 to 25 pounds. Grows close to the ground, matures evenly, stands up well in the field. Makes the finest kraut and has the finest flavor of any early cabbage. Our seed is imported from Denmark and has never failed to make the best possible crops. Planted later it is a fine early winter variety and keeps well until Christmas. For early use it should be planted in hot beds March first and under favorable conditions will make fully matured heads by July 10.

EARLY WINTER VARIETIES

Copenhagen Market.

Glory of Enkhuisen. Prices—Pkg., 10c; ounce, $1.00; pound, $10.00.

Charleston Wakefield. Prices—Pkg., 10c; ounce, 50c; pound, $2.50.

Flat Dutch. Prices—Pkg., 10c; ounce, 50c; pound, $2.50.

Scott's Cross. Prices—Pkg., 10c; ounce, 80c; pound, $8.00.

Dala. Prices—Pkg., 10c; ounce, $1.00; pound, $10.

LATE CABBAGE

Danish Round Head (Short Stem), or Genuine Holland. Prices—Pkg., 10c; ounce, $1.25; pound, $10.

Evergreen Hollander. Prices—Pkg., 10c; ounce, $1.25; pound, $10.00.

Middle Stem Holland. Prices—Pkg., 10c; ounce, $1.25; pound, $10.00.

Danish Ball Head Long Stem. Prices—Pkg., 10c; ounce, $1.00; pound, $10.00.

RED CABBAGE

Drum Head. Prices—Pkg., 10c; ounce, 80c; pound, $8.00.

Haco. Prices—Pkg., 10c; ounce, $1.25; pound, $10.00.

CAULIFLOWER

One ounce of seed produces 2,000 plants.

Culture: For early crop, plant in hot bed by March 1st. For late crop, plant out doors by April or May. Plants should be transplanted to open ground when they are about 3 or 4 inches high. Irrigate and cultivate like cabbage. As soon as the head begins to form tie the outer leaves together as a protection thus bleaching the heads and giving the rich, white, creamy color so desirable. We offer imported seeds in three best varieties.

Early Snowball. Prices—Pkg., 10c; ounce, $2.50; pound, $30.00.

Enhuisen Market. Prices—Pkg., 10c; ounce, $2.50; pound, $30.00.

Danish Giant or Dry Weather. Prices—Pkg., 10c; ounce, $2.50; pound, $30.00.

We have cabbage and cauliflower plants on sale throughout the season. Try them in your garden. Prices on application.

CELERY

ONE OF THE EASIEST CROPS FOR YOUR HOME GARDEN. READ OUR CULTURAL DIRECTIONS.

Culture: If you grow your own plants, the seed should be planted in March in a hot bed. After attaining a heighth of 3 to 4 inches, transplant to outdoors. If the plants are too large, cut them down with a pair of scissors. This strengthens the roots. To grow celery in your garden, dig a shallow trench, say 6 inches deep and 10 inches broad. In this set out a double row of plants about 6 inches apart. After they have finished their growth, bleach by leaning wide boards against either side of the row of celery or bank with dirt. To store for winter, take up roots and all and place in your cellar, standing in a couple of inches of earth. Wet them occasionally and the celery will grow and bleach, acquiring unapproachable flavor and crispness.

Golden Self Bleaching. Price—Pkg., 10c; ounce, $1.50; pound, $20.00.

American Seed. Prices—Pkg., 10c; ounce, 75c; pound, $8.00.

....Giant Pascal. Prices—Pkg., 10c; ounce, 25c; pound, $2.50.

White Plume. Prices—Pkg., 10c; ounce, 25c; pound, $2.50.

Celeriac, or Turnip Rooted Celery. Prices—Pkg., 5c; ounce, 30c; pound, $3.00.

CARROT

Prices—Pkg., 5c; ounce, 10c; pound, $1.00.

Culture: Sow the seed as early as the ground can be worked, in rows 15 inches apart and one inch deep. When they are 2 inches high, thin to 4 inches apart in the row. For fall or winter, sow from June 1st to 15th. Use one ounce to 300 feet of drill.

Ox Heart.
Danvers Half Long.
Chantenay.

POSTAGE PAID ON ALL GARDEN AND FLOWER SEEDS.

SWEET CORN

Culture: Plant the early varieties about May first. Late varieties about May 15th. Our recent late springs make it the part of wisdom not to have corn too far advanced before June first. Plant in hills about 12 inches apart; rows 24 inches wide; use 10 to 12 pounds to the acre.

EARLY VARIETIES

Prices—Pkg., 5c; pound, 25c; 10 pounds, $2.00.
Balcom's Golden Bantam Colorado Grown.
Peep O'Day.

MID-SEASON VARIETIES

Prices—Pkg., 5c; pound, 25c; 10 pounds, $2.00.
Ripen during August.
Howling Mob.
Black Mexican.
Early Minnesota.

LATE VARIETIES

Country Gentlemen.
Stowell's Improved Evergreen.

CUCUMBER

Prices—Pkg., 5c; ounce, 10c; pound, $1.25.

Culture: Prepare hills about 2 feet square, well filled with rotted manure and in this plant the seed about one inch deep and six inches apart. Use one ounce to 10 hills or two pounds per acre.

Long Green.
Fordhook Pickling.
Chicago Pickling.
First and Best.
White Spine.
Fordhook Famous.
Davis Perfect.
Japanese Climbing.

BALCOM'S DOLLAR ASSORTMENT

A complete assortment of seed that you need to plant in your own garden.

Corn, two kinds; peas, two kinds; beans, two kinds; radishes, two kinds; lettuce, beets, turnips, carrots, cucumbers, squash muskmelon, watermelon, and one quart Balcom's home grown onion sets.

Price—One dollar; delivered free any place in Colorado.

CRESS

	Pkg.	Oz.	Lb.
Water Cress	5	35	$3.50
Pepper Cress	5	10	.60

EGG PLANT

	Pkg.	Oz.	Lb.
Improved New York	10	40	$4.00
Black Beauty	10	40	4.00
Long Purple	5	20	2.00

ENDIVE

Culture: This plant is similar to lettuce and is used in salads in the same manner. Sow in drills one-half inch deep and thin when 2 inches high. As

the plant matures tie the outer leaves thus bleaching the center.

	Pkg.	Oz.	Lb.
Green Curled	5	20	$1.75
Broadleaf Bavarian	10	40	4.00

KALE

	Pkg.	Oz.	Lb.
German Purple	5	10	$ .75

KOHL RABI

Plant like turnips, 1 ounce to 300 feet of drill.

	Pkg.	Oz.	Lb.
White Vienna	5	20	$2.50
Purple Vienna	5	20	2.50

LEEK

Flavors delicately like onions.

	Pkg.	Oz.	Lb.
Large London	5	15	$1.50
Musselbaugh	5	25	2.50

LETTUCE

Prices—Pkg., 5c; ounce, 10c; pound, $1.25.

Culture: Just as soon as frost is out of the ground plant the seed in drills one-half inch deep, using 1 ounce of seed to 300 feet of drill. Head lettuce should be transplanted two or three times to insure its making heads.

HEADING VARIETIES

May King.
New York.
Big Boston.
Ice Berg.

CURLED OR LOOSE LEAF VARIETIES

Early Curled Silesian.
Earliest Way Ahead Lettuce.

Postage extra, two cents per quart.

PARSNIPS

Culture: Sow in the spring, one-fourth in. deep, using one ounce to 400 feet of drill or five pounds to the acre. Thin to four inches apart. They may be left in the ground during the winter.

	Pkg.	Oz.	Lb.
Hollow Crown Sugar	5	15	$1.00
Guernsey Half Long	5	15	1.00

PARSLEY

Culture: Soak seed 48 hours in water before planting, then use one ounce to 300 feet of drill.

	Pkg.	Oz.	Lb.
Moss or Triple Curled	5	10	$1.00

PEPPERS

Culture: Sow seed one-half inch deep in hot bed or box. Transplant 6 inches apart when frosts are over. Use one ounce for 1,500 plants.

	Pkg.	Oz.
Chinese Giant	10	$ .40
Ruby King	10	.25
Long Red Cayenne	10	.25
Red Chili	10	.25

PEAS

Culture: Plant as early as ground can be worked and in succession as long as desirable. Put in rows 30 inches apart and 2 inches deep. Use one pound of seed for 150 feet, or 75 pounds per acre. Planting in double rows will aid in holding them up.

Prices—Pkg. 10c; pound, 35c; 10 lbs., $3.00.

EARLY SMOOTH SEEDED VARIETIES

These should be planted for the first crop as the smooth surface of the seed prevents the attack of ground rot.

Extra Early. Grows two feet tall.
Little Marvel. Grows 18 inches tall.

EARLY WRINKLED VARIETY

While these are more susceptible to ground rot, they produce much sweeter peas.

American Wonder. Twelve inches tall.
Nott's Excelsior. Two feet tall.
Laxtonian. Two feet tall.
Little Gem. Two feet tall.
Thomas Laxton. Two feet tall.
Blue Bantam.

TALL, LATE WRINKLED VARIETIES

This type, while quite late produces the greatest quantity, the finest and sweetest peas for table use.

Telephone. Three to four feet tall.
Everbearing. Three to four feet tall.

PUMPKIN

Culture: Plant one inch deep in hills when frosts are over, using four ounces to 100 hills, or five pounds to the acre.

	Pkg.	Oz.	Lb.
Small Sugar	5	15	$1.25
Japanese Pie	5	15	1.25
Connecticut Field	5	10	.75
Kentucky Field	5	10	.75
Large Cheese	5	10	.75

RHUBARB

	Pkg.	Oz.	Lb.
Linnaeus	5	20	$1.50
Victoria	5	20	1.50

RADISH

Culture: Sow in rows, half inch deep, as early as ground can be worked and at intervals thereafter. Use one ounce for 150 feet. Thin to one inch apart and water plentifully.

Prices—Pkg.. 5c: ounce, 10c; pound, $1.25.

Round Scarlet White Tip.

Round Scarlet Turnip.

Sibley or Pike's Peak.

TOMATO

Culture: Sow half inch deep in hot beds or boxes the first of March, transplanting to the open ground from May 15 to June 1. Use one ounce for 3,000 plants.

	Pkg.	Oz.	Lb.
Livingston Beauty Best for general crop.	5	25	$3.50
New Stone Largely used for canning purposes.	5	25	3.00
Balcom's Early Colorado Fourth year of selection and adaption of the JOHN BAER TOMATO. This magnificent, scarlet globe variety, has now been brought to the point where we consider it the ideal type for planting in Northern Colorado. The fruit is a rich scarlet color, solid fleshed, smooth skinned, and free from scab or sunburn. Last year it began producing the 20th of July and continued until frost. The returns from one patch were at the rate of $2,000 an acre. We think so much of it that this year all of the plants which we sell will be grown from this seed.	10	50	5.00
Livingston Globe A very fine new variety.	5	25	3.50
Earliana	5	25	2.25
June Pink Much used by market gardeners for early stock.	5	25	3.00

Flower Seeds

SWEET PEAS

Sold in Bulk

Culture: Plant in rows about four inches deep at any time from Feb. 22 to April 10. Soak the seed in warm water for 48 hours before planting.

The soil should be moderately rich. If any manure is used, it should be well rotted or sheep manure. Do not use fresh manure under any conditions as this produces heat which will eventually cause the death of the plant. Our seed is especially grown by the best sweet pea specialist in California and can be depended upon to produce a wonderful range of magnificent colors. Sweet peas are divided into two classes—the old original Grandiflora type and the Spencer. The Spencer differs from the Grandifloras in having larger petals, wonderfully ruffled, and displaying a range of color from the most delicate tints of the dawn to the lavish and gorgeous shades that enthrall the Oriental imagination. This year we are giving the first place to the Spencer peas and are making our prices much lower than other seedsmen that our customers may afford a hedge of these most delightful blossoms.

GIANT SPENCER SWEET PEAS

In Separate Colors

Prices—Pkg., 10c; ounce, 25c; pound, $2.50.

Lovely—Delicate rose with dainty flesh shadings.

Miriam Bearer (New)—Shell Salmon Pink shades on background of rich cream.

Apple Blossom—Rose and pink with white.

LAWN GRASS SEED FOR VELVETY LAWNS

To make a good lawn, prepare your ground by carefully plowing or spading into the soil a quantity of sheep manure or well rotted stable manure. Rake it thoroughly until the top soil is completely pulverized, all clods and lumps removed and a firm seed bed is formed. In seeding, use a mixture three-quarters finest Kentucky Blue Grass, one-fourth finest white clover. Sprinkle this over the surface and carefully rake it into the top soil. Use one pound of seed to cover a space 10x10 feet. Cover with about six inches of straw to prevent crusting of the soil and to retain the moisture. Sprinkle every day until the grass is up about one inch when the straw may be removed. Lawns should be put in during April or May or during September or October. The great heat of the sun is detrimental to the growth of the young shoots of grass. We have some exceptionally fine seed of Blue Grass and White Clover which we quote as follows:

Fancy Kentucky Blue Grass, right from the Blue Grass region of Kentucky, per lb., 40c; 10 lbs., $3.50.

Fancy White Clover, per lb., 80c; 10 lbs., $7.50.

Write for prices in larger quantities.

FIELD SEEDS

Prices not guaranteed, but will always be made as low as possible.

ALFALFA

Prices—Per lb., 25c; 100 lbs., $22.00.
